Remarks:

Executive Secretary

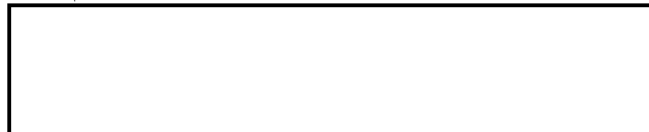

SECRET

15 June 1981

MEMORANDUM FOR: Director, National Foreign Assessment Center  
FROM: Director of Central Intelligence  
SUBJECT: Soviet Science and Technology Capabilities

We talked about doing a better estimate on Soviet science and technology capabilities. In that connection and in relation to tightening up our U.S. and CoCom export controls, I would like to see the Department of Defense report detailing technologies it considers to be critical, checked at the bottom of page 3 of this letter, and how these militarily critical technologies could impact the military capability of the Soviet Union as we now assess it.

25X1
